In 1946, a new teacher, Mrs. Helen Scott, entered Fern Creek High School. She was not actually new to the profession, having taught seven years in two other states. Once here, citizenship and English II were the classes assigned to her.

Down through the years, 22 to be exact, Mrs. Scott has coached Creeker students on the rights and wrongs of written and spoken English, debate and dramatics. Teachers presently at Fern Creek have passed through her courses, and are only a few of the countless number with whom she has shared her knowledge and experiences. Presently she teaches 10th grade English, and, needless to say, does an outstanding job.

In appreciation for such excellent services, we, the Annual Staff of Fern Creek High School, dedicate the 1968 *Tiger* to Mrs. Helen Scott.

The Student Council serves as a liaison between the students and the administration. It is the students' voice in school policies. As a service organization the Student Council awards academic letters, publishes buzz books, distributes Christmas baskets, and sponsors the annual Sadie Hawkins Week. National Honor Society

NATIONAL HONOR SOCIETY

The National Honor Society was founded in 1921 to honor students of high academic standing. The purpose of this national organization is to promote worthy citizenship and leadership, to stimulate a desire to render service, to encourage the development of character and to create enthusiasm for scholarship.

Each year our chapter at F.C.H.S., under the sponsorship of Mrs. Shirley Hughes, awards one of its members a scholarship to further his education. The funds for this scholarship are acquired through an annual car wash and the sale of annual covers. Though the only requirement for membership is a 3.5 average, the society is small, and because of this, remains one of the highest honors a student can attain.

Hours of Classes . . . tedious studies . . . intense learning . . . then the reward!—knowledge: the fruit of our labors and the most cherished of goals.

Academics

Many students do not realize the amount of work done by Mr. Van Hoose, his staff, and the Board of Education. Because of their efforts our school system functions efficiently. Their planning includes new buildings, a better and more comprehensive curriculum, the selection of well trained faculties, the maintenance of all county schools, the transportation of students to and from school and the distribution of financial aid to the different schools. We thank them for their never-ending planning and leadership.

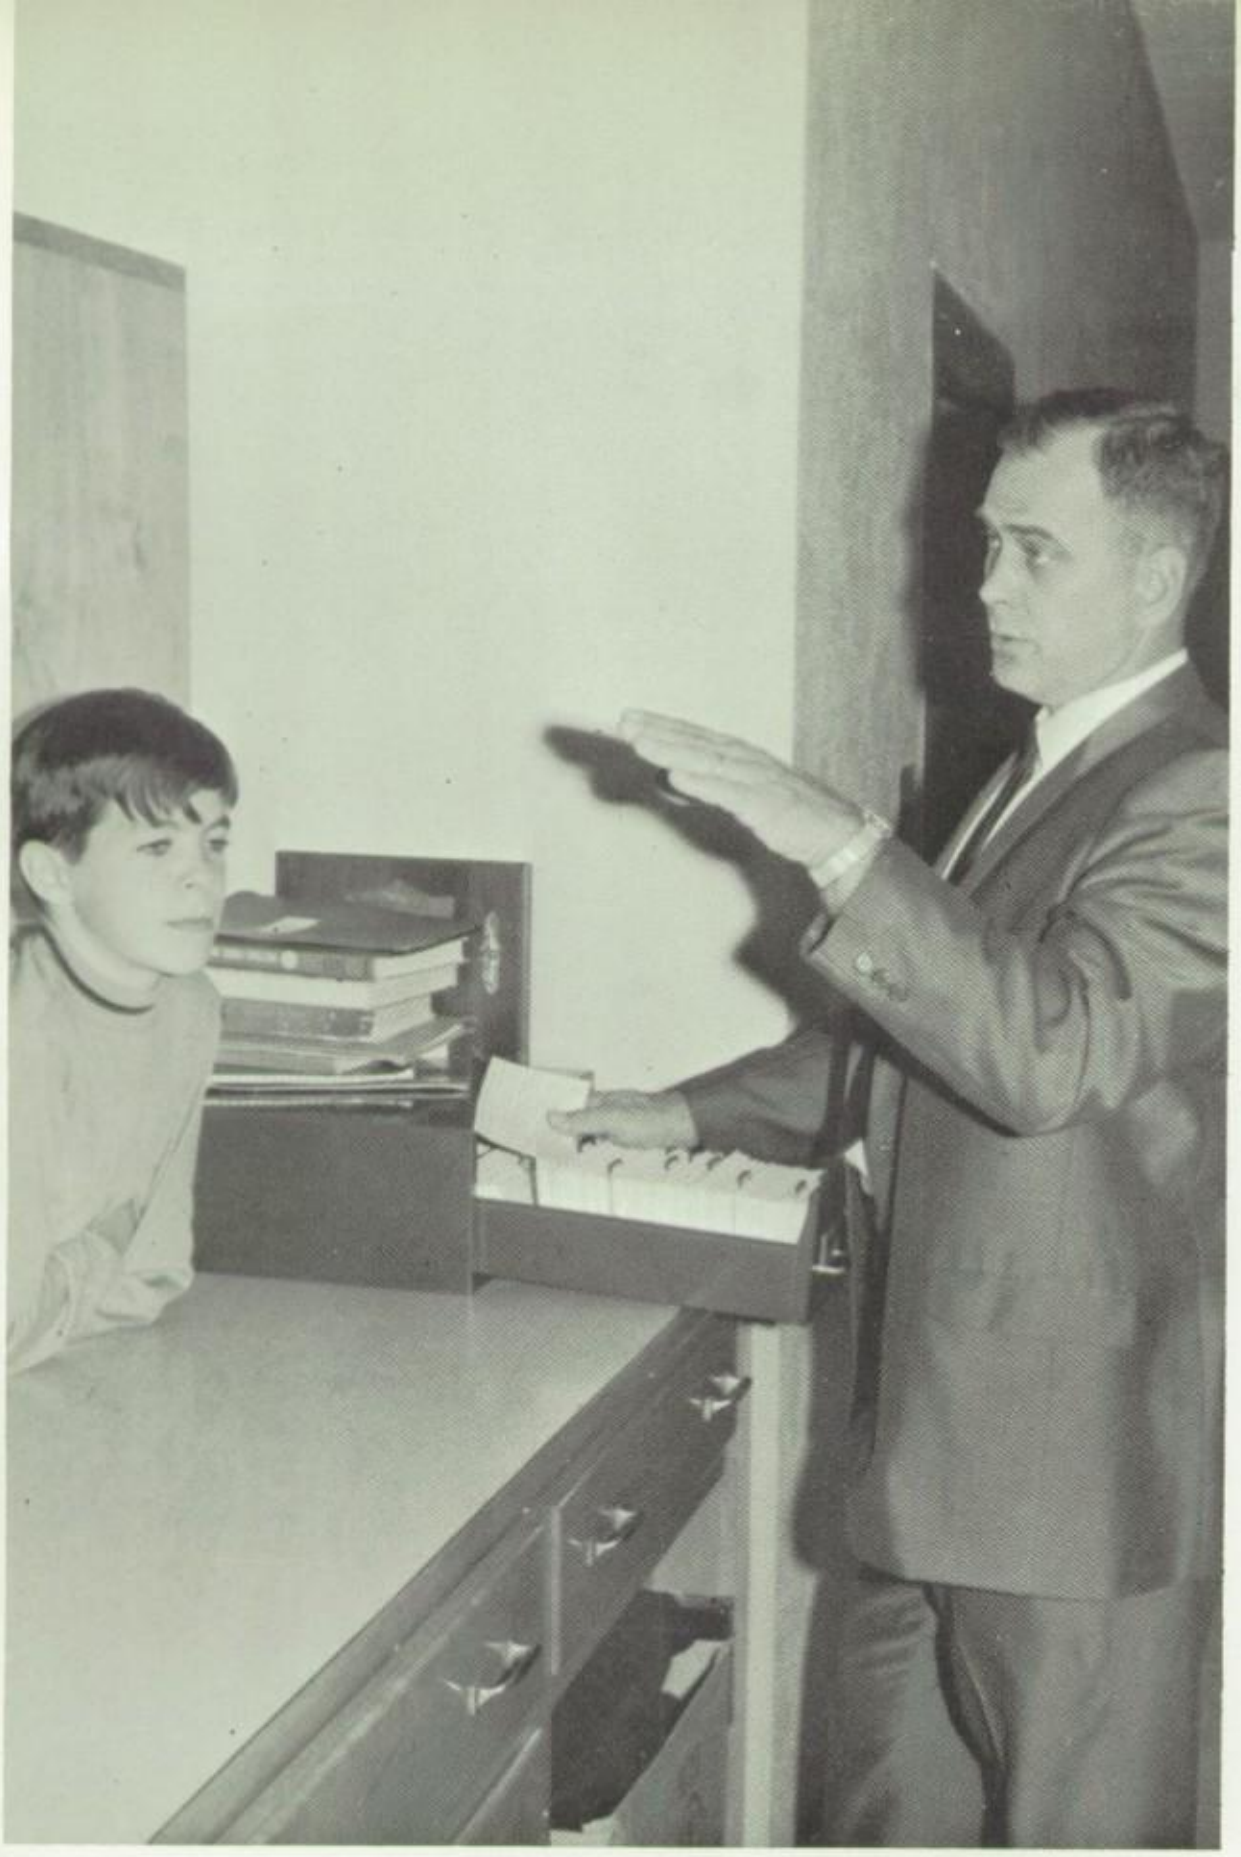
Mr. W. K. Niman has the responsibility of guiding Fern Creek's academic life and all other phases of school activity. His administrative ability and understanding have gained for him the respect of faculty, students, parents and civic leaders.

W. K. Niman,

Principal



Strictly business, Mr. Reschar, who has the responsibility of guiding the behavior that determines the F.C.H.S. atmosphere, demands the respect of students while enforcing discipline.

The students have learned Mr. Milkovich is a quiet person, a firm disciplinarian and capable assistant principal.

Counselors

Mrs. Virginia Holloman

Faced with the duty of guiding the students of Fern Creek through their high school years, the junior and senior high counselors advise the students about scheduling problems, vocational plans, college choices, and college opportunities. The counselors seek to balance educational and extracurricular programs for the enrichment and development of students. Fern Creek High deeply appreciates their untiring efforts in the students' behalf and salutes them for a job well done.

Foreign Language

French, Spanish, Latin and German are the languages that have opened new roads to us, roads of knowledge leading into spheres of interest. Imagine the pleasure of being able to say, "How are you?" or "Good morning" in another tongue. Speaking to a foreigner in his own language or participating in customs of another country add flavor to hard study. These roads introduce new cultures, develop an understanding between peoples, and add interest to history, art, and literature.

THE READING IMPROVEMENT AND LANGUAGE ARTS PROGRAM

The Reading Improvement Program might be considered a "newcomer" as compared with other subjects in the Jefferson County junior high school curriculum, for it is officially only six years old. Since reading is not a subject but a process for acquiring meaning from the printed page, it is important that students develop the necessary skills to prevent the process from being laborious. The program stresses reading in such content areas as literature, mathematics, science and social studies. Students are taught an awareness of differences of vocabulary and lesson structures which are peculiar to each subject. Among the basic reading skills taught are: phonetic and structural analysis, vocabulary development, comprehension, use of context clues, dictionary skills, listening skills and skill in following directions accurately. It is hoped that the end product will be students who have developed a more favorable attitude toward reading for pleasure and study.

On the evening of Sept. 25, 1967, death came swiftly and unexpectedly to Mr. Allen Logan Anderson, teacher of mathematics at F.C.H.S. for 14 years.

Mr. Anderson received his B.S. from Georgetown College and M.A. from the University of Kentucky.

While at Georgetown College he was chosen All Kentucky Quarterback and was affectionately called "Rabbit" because of his broken field running against opposing grid teams.

The faculty and students of F.C.H.S. take this means of paying tribute to a fine Christian gentleman and excellent teacher.
